

One Day Free Covid Vaccination Camp

4TH SEPTEMBER 2021

COVID-19 has affected all of us in some way. It is, however, important to note that the impact and consequence of a pandemic differ based on the status of the individual and the status of society. Some people have no option but to adapt to work online, homeschool their children, and order food using Instacart, while others have no choice but to be infected while keeping society running. The social group to which we belong determines how we are included in society and, therefore, how vulnerable we are to epidemics. In India, the government has placed a high priority on spreading vaccination all over the country following its invention. As a result, it would help us in the fight against the pandemic and attempt to control its negativity. Despite this, it is difficult to get the vaccine to every part of the country in such a short timeframe. In order to prevent the spread of the virus, the government distributed vaccines to college students in the region. As a result, we, the NSS program officers, were on hand in our college to ensure that vaccines got to all students.

Two active NSS units operate in our college Kabi Sukanta Mahavidyalaya. Each of the two units performs different duties within and outside our college. Together with the Department of Health and Family Welfare, Government of West Bengal, we organized a free Covid Vaccination Camp on 4th September to create antibodies for an ever-increasing number of individuals. This vaccination camp was organized for people 18 years or more in which most students have participated and got immunization. As part of this process, all defensive measures corresponding to Covid-19 were applied. Camp coordinators encouraged by the fact that 350 people were immunized through this camp. An important role was played by NSS volunteers in making this a success. Eventually, the honorable Principal of the college, Dr. Md. Salauddin Khan congratulated the NSS Department and the team of our college staff for the successful organization of the camp and encouraged them to conduct such activities in the future also.

We have attached a few photos from that event.
