

## **Participate in SPIT Free Movement**

**April to October 2020**

**NSS UNIT – I & II**

### **REPORT**

Throughout the year we are facing the COVID-19 pandemic. All educational institutions are closed due to contamination. Impact of Covid-19 has been multiple and not only limited to society at large. From the perspective of the economy both rural and urban have been impacted adversely. Everyone has seen the issues being faced by migrant workers, will they be the same when Covid-19 ends? Of course not. The migrant workers depend on daily earnings, they barely have savings which they could spend during any emergency. The lockdown has been recognised as the only method to control the spread of the pandemic and almost every country has adopted this method. Amidst the lockdown in Indian society, multiple issues related to social, educational, economic, political, agricultural, psychological levels and many more have been noticed which has created the devastating impact on the lives of the people.

NSS units of our college “**Kabi Sukanta Mahavidyalaya**” is actively involving in online “**SPIT Free Movement**” to spread the awareness that unnecessary spiting can spread the virus among the public. We need to be aware and consensus regarding this matter. Both units of our college starting this online campaign form the month of April 2020 to October 2020.

With any pandemic or any situation which impact the society at large comes the problem of psychological trauma. The lockdown has proved that “man is a social being” because continuous lockdown for about four months have impacted people psychologically and the burden has been faced by women and children in the form of domestic violence. In the lockdown period, multiple calls have been received on the helpline number made for the people going through domestic violence. As India is recognised as land of diversity, so the impact of Covid-19 is diverse and countless. But, if we see the other side of reality, COVID-19 has impacted our society and that is for sure, but only adversely? That is the thing we need to

analyse carefully and can't be left without a brief discussion(<https://timesofindia.indiatimes.com/readersblog/covid-19-and-its-impact-on-india/covid-19-and-its-impact-on-indian-society-27565/>). Till 27<sup>th</sup> October 2020 our NSS units of our college spreading this awareness information among 1270 persons. Here is the certificate of the recognition.

### Letter of Appreciation

Dear Leader,

On behalf of 'Pledge for Life' team, we would like to thank you and your NSS unit for supporting the **Spit Free India Movement**.

During this Corona crisis, experts determined that spitting spreads the virus. Chewing tobacco, gutkha, khaini, etc cause the urge to spit and hence the Government, under the Disaster Management Act 2005 gave the order to stop spitting in public places and the Prime Minister, Shri Narendra Modi, himself, urged the public to do so too.

The National Service Scheme (NSS) is supporting the Spitting Kills campaign wherein NSS Volunteers created awareness among public on the issue. This appreciation letter is issued because your NSS Unit has till 25<sup>th</sup> Oct 2020 got 512 persons to fill in the Spitting Kills weblink.

Your timely action is saving the spread of Covid-19 as well as reducing the usage of chewing tobacco. We now look forward to your getting thousands more to fill the weblink.

Thank you for your service to society,

**Arvind Mathur**  
Trustee  
Sambandh Health Foundation

**THE END**
